3 Power cable

4 International outlet adapter

5 Myzone Receiver

6 Mini keyboard remote with charging cable

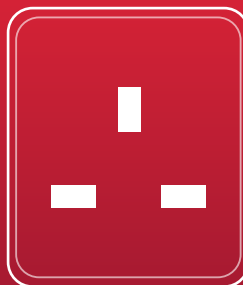

7 HDMI cable

In addition you will need

TV monitor

Power outlet

Wi-Fi or Internet network

Steps to follow

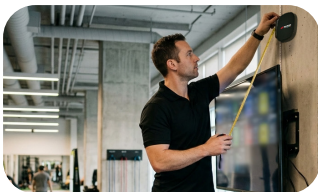

- 1 Find your country's outlet adapter and slide it onto the power cable block. Connect the power cable to the Myzone Mini PC and plug the cable into a power outlet near the TV. The Mini PC must always be connected to a power source.

- 2 Remove the keyboard's dongle found in the keyboard's battery compartment and insert the dongle into the USB slot on the back of the Myzone Mini PC. This is necessary for the wireless keyboard to speak to the hardware.

- 3 Use the HDMI cable to connect the Myzone Mini PC to the HDMI port on your TV.

- 4 Connect the Myzone receiver to the Myzone Mini PC via the USB port. Mount the Myzone receiver 8-10 ft high on the wall. It must not be obstructed in any way - do not mount the receiver behind the TV or on the ceiling.

- 5 Press the power button to turn on the Myzone Mini PC. A blue light will indicate it is powered on. The Mini PC must remain plugged into an outlet 24/7.

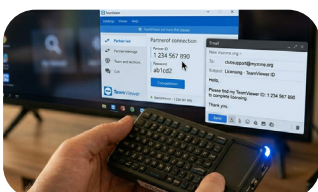

- 6 Turn on the wireless keyboard remote by switching on the power button located on the side of the keyboard. If the light is blue, the keyboard is controlling the Myzone Mini PC.

If the light is yellow, or flashing blue, try turning off and then back on. You can also try stepping off to the side of the TV so that the keyboard has better connection to the PC. Keyboards are specific to the Myzone Mini-PC they come with so ensure they did not get mixed up with your other wireless mini keyboards.

- 7 Using the mini keyboard remote, connect to your facility's internet.
 - a. Click the WIFI icon located at the bottom right-hand corner of your TV screen.
 - b. Connect to your gym's internet.

- 8 Once connected to your gym's internet, use the mini keyboard remote to open TeamViewer on your Mini-PC's desktop and contact Myzone Technical Support by email clubsupport@myzone.org. Provide your TeamViewer ID# to complete the last step of licensing.
